Parent Guidance for a Full opening - March 2021

It is essential that all parents sending their children back to school abide by the social distancing measures as set out in the government guidance. This is for both the protection of pupils and staff, who will be using the premises. All families sending their children into school need to respect this.

As suggested in the [government guidance for schools](#), we have drawn up this parental guidance for **your child's safety** and politely request that you observe the following steps:

- School is now compulsory for all pupils and attendance will be monitored fully.
- Parents should not congregate at school entrances/exits – please drop and go.
- Social distancing measures should be observed at drop off and collection time.
- It would be of benefit to wear a mask when dropping off and collecting your child.
- There will be strict drop off and collection times for pupils in each group to minimise contact and mixing. Due to an increase of pupils in school, if you miss drop off you will have to wait until the last bubble has entered school (9.05am).
- If a child forgets anything such as their lunch box, parents should not return to school without calling the office first.
- Younger children should be dropped off at their older brother or sister's time.
- No parents/carers are allowed into the school without making a prior appointment – a telephone conversation will be the best option initially.
- Any liaison with teachers/staff needs to be done via email to the office and parents should not approach staff members at school drop off or collection times, only if essential and appropriate.
- Parents must remain contactable at all times so that, if their child develops symptoms of COVID-19, they can be collected as soon as possible in order to seek medical attention and to reduce the risk to other pupils and staff.
- Parents should follow the flow chart of actions if their child presents with any symptoms of Coronavirus.
- Children will wear normal school uniform except for on the days when they have PE, where they will attend dressed in their PE kits (class teachers to advise).
- For the youngest children, we understand the school routine may be unsettling and we will need your support if they are reluctant to come into school. Staff should not be making any physical contact to encourage them to come in.
- Children will be provided with their own stationery to reduce the need/chance of children sharing resources.
- More time maybe spent outdoors than usual. In the case of hot weather, sun cream needs to be applied before coming into school and children should bring a hat. A coat should also be worn when required.
- All families must engage in the NHS test and trace process by booking a test (Call 119) if they are experiencing any symptoms.
- If a 'class bubble' is required to go into 10-day isolation, parents will support children to undertake the home learning as directed by the class teacher.
- All hot school dinners will be pre-booked and money paid accordingly.
